

Application developer (Dynamics Nav)

Description

We are now looking to recruit new members to join our Sofia office as Dynamics Nav application developers.

Responsibilities

- Development in Microsoft Dynamics TM NAV / Business Central based on a development methodology
- Development of APIs to connect to other SW-Solutions (e.g. CTI, EDI, MDE, Shop)
- Technical support for customization and application development with Microsoft Dynamics NAV / Business Central solutions
- Implementation of quality assurance measures during and after completion of development

Qualifications

- Degree in business informatics or computer science or a comparable multi-year professional experience as application developer
- Knowledge in MS SQL, PowerShell, JavaScript, HTML 5, C#, WebServices
- Fluent in English (Interviews are in English only!)
- Ideally experience as a MS Dynamics/Business Central
- Ideally fluent in German

Job Benefits

- Excellent remuneration package with additional health coverage
- Job specific training
- Be a part of a dynamic team of young people in a friendly work environment
