

Ruby on Rails Developer

Description

We are now looking to recruit new members to join our Sofia office as Developer to lead our Client's B2B SaaS product, bring them to the next level and shape the sales acceleration technology industry.

Responsibilities

This position is ideal for someone ready for a lead developer role who wants to continue developing his/her management skills and business sense. He or she will have the opportunity to work with the founder on our Client's high level B2B SaaS technology road map and architecture and run the day-to-day operations and delivery of a rapidly evolving product.

If you always dreamed to launch your own business, but never had the opportunity to do so, this is the role for you as you have the chance to make an important impact on a funded startup with a proven business model.

Technology stack: Ruby on Rails, PostgreSQL, JQuery, VueJS, Typescript.

Qualifications

- A commercially experienced Ruby on Rails full-stack developer with good working knowledge of backend/frontend/DevOps principles. Experience with VueJS would be a nice-to-have but not a necessity.
- Comfortable supporting the development of a technology strategy to deliver a market leading product Able to understand business requirements and priority of a fast growing startup
- Experienced building and maintaining reliable, performant, secure web apps
- Good communicator
- Work with a small high-performance team who will fight beside you to accomplish the amazing
- Very good English knowledge in spoken and written

Job Benefits

- Good remuneration package with additional health coverage
- Job specific training
- Work in a multinational team of professionals across industries such as IT, Sales & Marketing and Customer Care
- Be a part of a dynamic team of young people in a friendly work environment

Please note that only successful candidates will be contacted.
